

ProTrain's Turn-Key Online Classes for Continuing Education and Corporate and Military Training Programs Now Available through Augusoft Lumens

Students can now self-register for ProTrain's 700+ online classes seamlessly through Lumens

Minneapolis, MN– Oct 18, 2011 – Augusoft® announced today the availability of ProTrain's turn-key online classes through Lumens®, a web-hosted enrollment management system designed for the unique needs of continuing, community, corporate education, military and workforce development programs.

Students can now self-register online for ProTrain's entire catalog of 700+ online classes seamlessly through the interface established in Lumens. This interface provides program staff with the flexibility to choose which ProTrain classes to import into the Lumens online catalog. Augusoft Lumens customers who already partner with ProTrain may now upload these classes, indicate a retail price, and then have these classes display on their Lumens site.

"Lumens is a very effective, efficient and complete online enrollment management system for non-credit education programs," said Betty Gardner, CEO of ProTrain, LLC. "The integration of ProTrain classes into the online course catalog of Lumens broadens our reach to continuing education and workforce development programs throughout the United States and Canada."

ProTrain offers certificates, certifications and courses in Green/Renewable Energy, Healthcare, Business, CompTIA, Microsoft, Cisco, Project Management, Homeland Security/Bio-Terrorism, Trade and Industrial, RFID, Legal, Financial Services, and Desktop Skills. ProTrain also offers specialized training programs for active duty military members and their spouses, wounded warriors, civil affairs personnel and veterans. In addition, ProTrain offers blended in-class workshops, training assessment managers and assistance with managing corporate clients and RFP/Grant opportunities.

"We are committed to providing our customers with a wide range of learning options to offer their students. Students need the ability to build new skills or upgrade old ones, but don't always have the time or ability to participate in on-campus offerings," said Cem Erdem, CEO and President of Augusoft. "With the addition of ProTrain, we continue to offer lifelong learning programs a broad portfolio of affordable online non-credit courses and services to educate their community."

About ProTrain, LLC

ProTrain, LLC, is dedicated to quality educational services at an affordable cost, in the classroom or online, ensuring success in the workforce through the active engagement of direct relationships with universities, community colleges, educational entities, corporations, non-profits and the military community throughout the United States and internationally.
