

## **Augusoft Introduces Lumens Collective for the Management of Membership-Based Lifelong Learning Programs and Groups of Learners**

*Lumens Collective is ideal for managing registrations for participants of Osher Lifelong Learning Institutes (OLLI) and other similar membership-only lifelong learning programs.*

**Minneapolis, MN– July 24, 2013** – Augusoft® announced today the availability of Lumens Collective, a unique product designed to manage registrations for membership-based lifelong learning programs such as Osher Lifelong Learning Institutes (OLLI), Lifelong Learning 50+, or Learning in Retirement.

With Lumens Collective, lifelong learning programs can now offer both member and non-member registration while providing discounts and/or other special accommodations and benefits to their members. Lumens Collective also includes robust reporting capabilities allowing programs to easily pull the membership demographics and course data many programs are required to collect and report out to foundations, boards of directors, or leadership.

“Lumens Collective is a dynamic enrollment management system that gives Osher Lifelong Learning Institutes and other similar membership-based lifelong learning programs the ability to better manage registrations and easily pull required reports,” said Jenniefer Halverson, Director of Sales and Marketing, Augusoft, Inc.

Augusoft will demonstrate Lumens Collective at the [2013 Southern Conference for Lifelong Learning](#) being held July 24-26 at the University of Georgia.
